NN-TENO5 reconstruction and differentiable solver
Conserved cell averages
Scalar u / Euler U
Five-point stencils
Scalar states / Euler split fluxes
Classical TENO5
Candidate polynomials + rejection
Conservative numerical flux
Flux difference + SSPRK3
MLP: 5 → 64 → 32 → 16 → 8 → 3
Separate scalar / Euler parameters
Hybrid reconstruction
TENO5 + g λ (NN − TENO5)
